Notes:

1. Basis of preparation

The interim financial report is unaudited and has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Stock Exchange”), including compliance with Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting”, issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). It was authorised for issue on 29 November 2011.

The interim financial report has been prepared in accordance with the same accounting policies adopted in the annual financial statements of the Group for the year ended 31 March 2011, except for the accounting policy changes that are expected to be reflected in the annual financial statements of the Group for the year ending 31 March 2012. Details of these changes in accounting policies are set out in note 2.

The preparation of an interim financial report in conformity with HKAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

The interim financial report contains condensed interim consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the annual financial statements of the Group for the year ended 31 March 2011. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”, which term collectively includes HKASs and Interpretations).

The financial information relating to the financial year ended 31 March 2011 that is included in the interim financial report as being previously reported information does not constitute the Company’s statutory financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 March 2011 are available from the Stock Exchange’s website. The auditors have expressed an unqualified opinion on those financial statements in their report dated 28 June 2011.

2. Principal accounting policies

The HKICPA has issued a number of amendments to HKFRSs and one new Interpretation that are first effective for the current accounting period of the Group and the Company. Of these, the following developments are relevant to the Group’s financial statements:

- HKAS 24 (revised), Related party disclosures
- Improvements to HKFRSs (2010)

These developments related primarily to clarification of certain disclosure requirements applicable to the Group’s financial statements and have had no material impact on the contents of the interim financial report.

The HKICPA has issued a number of amendments and new standards which are relevant to the Group’s business and are not yet effective for the period under review and which have not been adopted in this interim financial report. The Group is in the process of making an assessment of what the impact of these amendments and new standards is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the Group’s results of operations and financial position.

3. Segment reporting

The Group manages its business by divisions, which are organised by business lines. In a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resources allocation and performance assessment, the Group has presented the following four reportable segments. No operating segments have been aggregated to form the following reportable segments.

- Sales of garments: the manufacture, retail and wholesale of garments.
- Licensing of trademarks: the management and licensing of trademarks for royalty income.
- Printing and related services: the manufacture and sale of printed products.
- Property rental: the leasing of properties to generate rental income.

(a) Segment results, assets and liabilities

For the purposes of assessing segment performance and allocating resources between segments, the Group's senior executive management monitors the results, assets and liabilities attributable to each reportable segment on the following bases:

Segment assets include all tangible, intangible assets and current assets with the exception of interests in associate, other financial assets, trading securities, club memberships, deferred tax assets, cash and cash equivalents, current tax recoverable and other corporate assets. Segment liabilities include trade and other payables and bank borrowings with the exception of other corporate liabilities.

Revenue and expenses are allocated to the reportable segments with reference to sales generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation or amortisation of assets attributable to those segments.

The measure used for reporting segment profit is "adjusted EBITDA", i.e. "adjusted earnings before interest, taxes, depreciation and amortisation", where "interest" is regarded as including investment income and "depreciation and amortisation" is regarded as including impairment losses on non-current assets. To arrive at adjusted EBITDA, the Group's earnings are further adjusted for items not specifically attributed to individual segments, such as share of profits less losses of associate and other head office or corporate administration costs.

In addition to receiving segment information concerning adjusted EBITDA, management is provided with segment information concerning revenue (including inter-segment revenue), interest income and expenses from cash balances and borrowings managed directly by the segments, depreciation, amortisation and impairment losses and additions to non-current segment assets used by the segments in their operations. Inter-segment revenue are priced with reference to prices charged to external parties for similar orders.

Although majority of our business is generated from the Greater China region, economic problems in the U.S. and Europe can also affect negatively our business here. Our management recognizes the challenges ahead at this turbulent time and will be prudent in managing the basics such as inventory control, overheads and expenses. However, at the same time, we are confident of a steady growth and will also seek opportunities ahead.
